

# *Rhythm Race*

*Take turns rolling the rhythm die and fill in the number of beats. First one to the finish wins!*

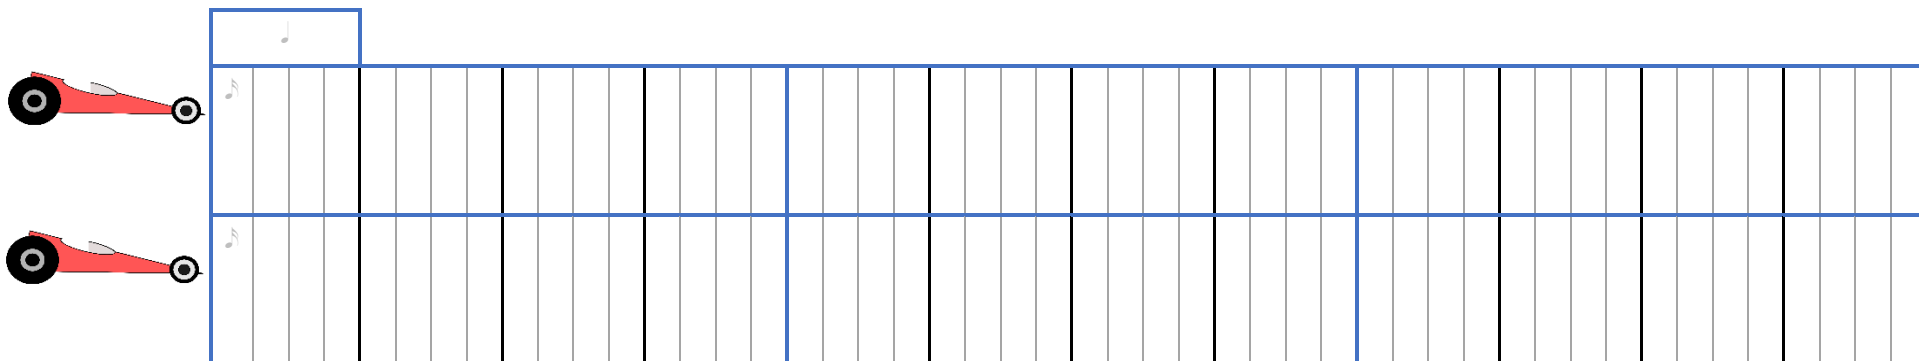

A grid for a rhythm race. On the left, two red racers are positioned at the start. Above the top row is a rhythm die showing a quarter note. The grid consists of two rows and 15 columns. The first column of each row is a larger box containing a musical note (quarter note for the top row, eighth note for the bottom row). The remaining 14 columns are smaller boxes for writing the number of beats. The top row's first box is highlighted with a blue border.

# *Rhythm Race*

*Take turns rolling the rhythm die and fill in the number of beats. First one to the finish wins!*

A grid for a rhythm race, identical to the one above. It features two red racers on the left and a rhythm die above the top row showing a quarter note. The grid has two rows and 15 columns. The first column of each row is a larger box containing a musical note (quarter note for the top row, eighth note for the bottom row). The remaining 14 columns are smaller boxes for writing the number of beats. The top row's first box is highlighted with a blue border.
